

CHURCH MEWS

A thriving new retail
and leisure hub.

Reviving the high street, welcoming
new brands and supporting
local businesses to create a
vibrant destination to eat, shop,
and connect - shaping a healthy,
positive future for Slough.

HERITAGE QUARTER

Celebrating Slough's
legacy and innovation.

Framed by St Ethelbert's Church, the Heritage
Quarter honours Slough's innovators - weaving
history into contemporary design.

The Heritage Quarter will form Phase 1 of the
redevelopment and comprise of 346 homes
along with a mix of new ground floor amenities,
retail and restaurants.

STATION WALK

A greener town centre made for people.

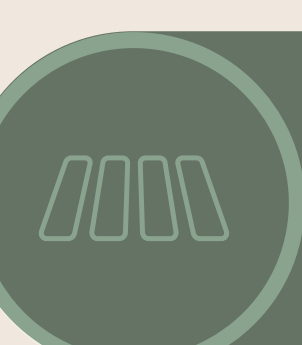

Improved routes will link the station to the high street, creating a gateway to Slough town centre through a safer, greener and more welcoming place.

Our proposals will bring a biodiversity net gain of over 500%, with landscape and nature woven through the development including a new public park located off the High Street.

Did you know...?
Slough was home to pioneering highways solutions including the world's first zebra crossing. Station Walk echoes this history through striped patterns in the paving.

HELP BUILD A BRIGHTER SLOUGH TOGETHER.

HERSCHEL SQUARE

A New Town Square.

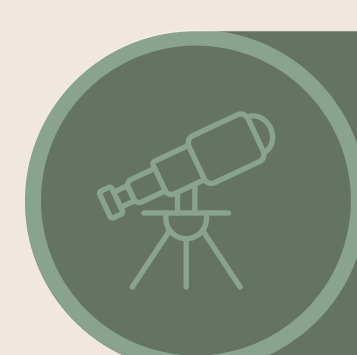

Transforming the heart of Slough into a vibrant social hub, alive with food, culture, and community spirit.

Herschel Square draws inspiration from the Herschel family's pioneering work in astronomy.

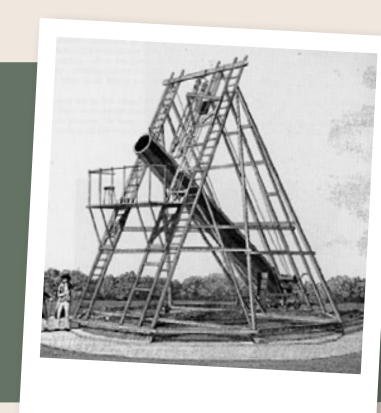

SLOUGH

Designed for life

Did you know...?
The Herschel family developed telescopes (including the world's largest at one point), discovered Uranus, mapped the Milky Way and detected infrared radiation. This will be celebrated in the landscape.

The background of the entire page is a faded, orange-tinted photograph of a modern urban courtyard. In the center, there is a large, circular fountain with multiple water jets. Several people are walking around the courtyard, and some are sitting at small tables with chairs. The courtyard is surrounded by multi-story buildings with balconies and arched windows. The overall atmosphere is bright and modern.

INSPIRED BY SLOUGH'S HERITAGE. CREATING SLOUGH'S FUTURE.

WELCOME

From the makers of Horlicks Quarter.

From the team behind The Horlicks Quarter, we're proud to present our vision for the next chapter in Slough's regeneration - a vibrant, sustainable, and connected town centre for everyone.

At Berkeley, our mission is to create exceptional places where people aspire to live, work, and thrive. Building on the success of The Horlicks Quarter, our goal is to deliver high-quality homes, beautiful public spaces, and a lasting positive impact on the wider community.

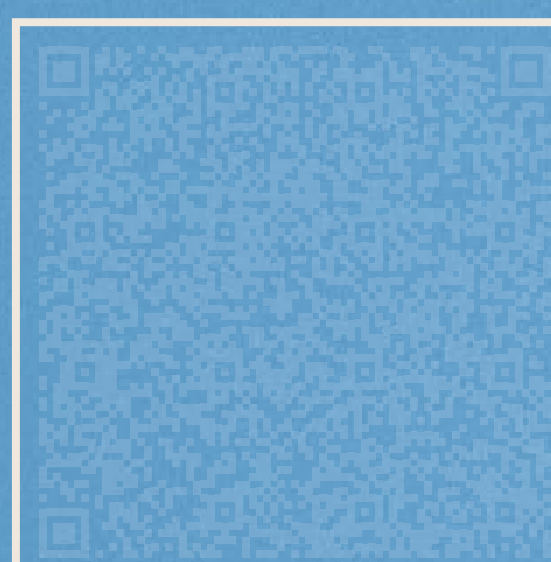

In June 2025, Berkeley acquired the Queensmere and Observatory Shopping Centres, where outline planning permission already exists for up to 1,600 homes on the Queensmere site.

We will be submitting a detailed planning application for Phase 1 in November 2025, and these boards showcase our emerging proposals.

Importantly, the Observatory Shopping Centre will remain open throughout this process, ensuring that local shops and businesses continue to serve the community while plans for the future take shape.

We believe strongly in Slough's potential and are excited to be leading the transformation of its town centre into a place that truly reflects its energy, diversity, and ambition.

YOUR SLOUGH

Keeping the High Street alive...

We're exploring 'meanwhile uses' to bring energy and activity to the high street during construction - from food and drink, to arts, culture, sport, and community events - ensuring the town centre stays lively and welcoming throughout its regeneration.

...and Creating Skills, Opportunities and Benefits

Over the next ten years, we'll deliver around 8,000 new jobs and ensure at least 5% of our workforce are in training or apprenticeships through the 5% Club.

In addition to the delivery of the project itself, we will invest £8.1 million into local amenities and infrastructure to contribute to Slough's wider regeneration.

A tailored community plan from day one will make sure local people share in the benefits, with meanwhile uses and engagement helping to inform long-term designs, spaces, and events that strengthen skills, careers, and community connections across Slough.

IMAGINE. SHAPE. TRANSFORM. THE FUTURE OF SLOUGH.
